Biography:	<p>My name is Angel and I am 10 years old, I am studying in grade 1. we are two sister and both are living at NLF orphan home. When I was 3 years old, my mother passed away because of TB, so I don't remember her very well but I love and miss her so much. I believe she is resting in peace. My Father is jobless and because of no work and money it was really difficult to survive. Nobody was taking care for us including my father. He does not has any concern with us. I am very thankful to NLF family who took us in the home and taking care for me and my sister. Now I can feel the happiness and joy in life. Papa (Pastor Babar Anwar) and Mama (Mrs. Pastor Babar Anwar) they both love me very much and taking care of me as my real parents. But I must say may be more than my real parent they are loving me. And I also love them very much. I wanted to become a teacher as I love my teachers very much.</p>	

Would you please sponsor my Education as I want to study and become a Teacher to educate the children like me!
