Biography:	<p>My name is Asma Nadeem and we are two sisters and both live at NLF Orphan Home. Our Father is in jail in murder case and I don't know if we can find him back. My mother is mentally sick but still working as home maid for her survival. She is not able to take care of us and fulfill our needs so we got admitted in Orphan Home. My Father's parents get us out and took-over our home since my father went to Jail. My mother given us food from trash as she was not having other option that how we should survive. We were not having even very basic needs and sometimes my mother washed our hairs by clothes washing powder due to which we got head skin damaged. I am very thankful to God and after that thankful to NLF Team who has given us shelter and taking care of us as our own parents. I wish to be a Staff Nurse and serve the humanity.</p>
