<b>Biography:</b>	<p>My name is Saba and I am single child of my parents. My parents died and after death my uncle (Mother's Brother) took me to his house. He was very kind to me but His wife (My Aunt) does not like me and kept me alone and away from her children. One day she told me that I have to work as a maid in someone's house and they hired me for PKR 600/-Per month which my Aunt was receiving. I was doing dish washing, cleaning, dusting and washing clothes. Whole day I was working like anything. My Owner was giving me always leftover food even not fresh and smelly. In result of eating toxic food I become sick and my intestines got infection and having bad cough.</p> <p>My Aunt asked my Uncle "Now She has TB and I cannot keep this girl with my children in the home so they asked me to leave the house. Then NLF Team found me and took me to Orphan Home. They took me to Doctor and get my treatment. I am very thankful to NLF team who are always loving to me. And I love my NLF Family very much. God Bless our Family (Amen)</p>
