<b>Biography:</b>	<p>My name is Sawera and I am 4 years old. My father is TB patient and at very end stage.</p> <p>My mother left us and got married with another man. We are two sisters and we both are in NLF Orphan Home. As my father is admitted in Hospital and mother is not with us so we were living in a home in our street with an old woman who took pity on us. But she did not continue our support as she is also a poor lady.</p> <p>Then NLF Team visited us and took us in NLF Home. I am very thankful to God who brought us here and blessed us with NLF family. We both sisters are very happy here. May God bless our NLF Family.</p>
