<b>Biography:</b>	<p>I am Sewara Maqsood 5-years old. I am studying in Pre-Nursery. we are two sisters and 3 brothers. My mother passed away and father is working at Brick lines under huge debt. After death of my mother my father was taking us at work along with him as nobody was available for our take care. I used to sit there on the ground from morning to evening while my father was working at brick lines. I remember it was too much cold in the winter when my father used to take me with him as there was no other option for me except bearing cold.</p> <p>Then NLF team visited us and get me and my sister to NLF orphan home. I am very happy and thankful to God that now we are safe here. NLF is taking care of our all basic needs and providing us a better living standard. Here I have learnt how to pray and Bible teaching. When I will be grown up and get higher education then I wish to become Teacher.</p>

**Would you please sponsor my Education as I want to study and become a Teacher to educate the children like me!**
